| Numbers fr | rom 1-10. | | | | |
| Stages | Activities Material | | | | |
| Presentation | T greets ss. T does a brainstorming of products. T asks ss products they can buy in a grocery store and writes the names on the board. T shows flashcards of these products (fruit, vegetables, etc.) | Flashcards. Annex 1 | | | |
| Practice | T pastes de products on the board and makes a drill, ss count them. T writes one number per each one from one to ten with letter and number (which is the price of every product). T gives half of ss papers with a number and the students have to say it aloud and name of the product that corresponds to that price. T gives the rest of ss papers with the product's name and they have to say their name and the price. | Price tags. Annex 2 | | | |
| Production | T hands out to ss, products, adhesive tape, play money and price tags (\$1-\$10). T models the questions and answers for buying products by interacting with ss: How much is it? It costs 10 dollars. SS paste the prices tags on the products and in pairs ask question to know the price. Ss accommodate the products over the classroom. Ss make a roleplay where two ss are the cashiers and the rest are the customers. Using purchasing expressions to buy and sell the products. SS change roles so all ss participate. | Realia Annex 2 Adhesive Tape Play money | | | |
